

range introduction

Hangmann is a range of hanging service modules providing a portable and convenient means of distributing power, data and compressed air flow from overhead supplies.

Available as either a power module or combined power and compressed air module the units are made from a flame retardant grade of polyamide and are durable and resistant to chemicals.

features and benefits

- **Robust design to suit demanding applications**
- **Wide range of modules for added flexibility**
- **Suspension bar – easy positioning of unit**
- **Ideal for garages, workshops and factories**
- **Quality, reliability and safety comes as standard**
- **5 year guarantee**

overhead systems

OVERHEAD POWER MAKES A SAFER WORK ENVIRONMENT

SUSPENSION HOOK

- Fast and simple installation

ROBUST DESIGN

- Impact resistant
- Fire retardant
- Chemical resistant

PRE-ASSEMBLED OPTIONS

- Ease of installation
- Simplified ordering

RANGE OF MODULES AND MOUNTING PLATES

- MK Commando products available
- Compressed air modules available
- Built in flexibility

SUITED FOR USE IN 'TOUGH' ENVIRONMENTS

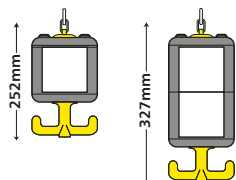

MK 3 PIN SAFETY SHUTTER AS STANDARD

GRAB HANDLE

- Hang tools
- Easy positioning of unit

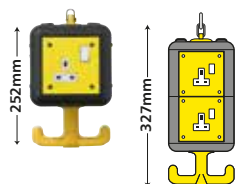

Power Modules

PART NO.	DESCRIPTION
SM34900A0	Single Empty module*
SM34900C0	Double Empty Module*

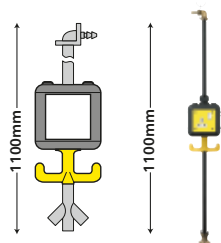

* Selection of accessories and mounting plates are available below.

PART NO.	DESCRIPTION
SM49004	Single Starter Pack: 2 x 13A Switch socket outlets 2 x Blank plates
SM49005	Single Starter Pack: 4 x 13A Switch socket outlets
SM49006	Double Starter Pack: 4 x 13A Switch socket outlets 4 x Blank plates
SM49007	Double Starter Pack: 8 x 13A Switch socket outlets
SM49010	Single Starter Pack: 3 x 13A Switch socket outlets 1 x Mounting plate for 2 x LJU6C modules (includes segregation backing plate)

Power modules arrive on site as individual components and have to be assembled separately

Compressed Air Modules

PART NO.	DESCRIPTION
SM34901A0	Single Empty air Module*
SM49019	Single Air Starter Pack: 4 x 13A Switch socket outlets
SM49018	Single Air Starter Pack: 2 x 13A Switch socket outlets 2 x Blank plates

* Selection of accessories and mounting plates are available.

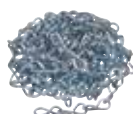

Mounting Plates and Accessories

SM49009

SM49011

SMCHAIN5

SM42449

PART NO.	DESCRIPTION
SM49008	13A Socket Outlet
SM49009	13A Switch socket outlet
SM49011	Mounting plate for 2 x LJU6C modules (includes segregation back plate)
SM49012	130V 16A Straight socket – Yellow (K9400YEL)
SM49013	250V 16A Straight socket – Blue (K9401BLU)
SM937895	Mounting plate for BS EN60309-2 socket outlet, 60mm fixing centres
SM910101	Blank mounting plate
SMCHAIN5	Suspension chain – 5m length
SM42449	Spring VHF80 80N
SM980911	Balancer Unit
SM980922	Locking balancer unit

Alternative configurations, including data and circuit protection options are available via the MK Design Service.
