## XMA-105

### Feedback Potentiometer Transmitter

The Peaktronics XMA-105 is a 4-20mA transmitter that is specifically designed for use with the Peaktronics AMC, LRC, SVC, and DMC series controllers. When a feedback potentiometer of 1K to 10K ohms is used with the AMC/LRC/SVC/DMC unit, the XMA-105 can be used to provide a 4-20mA signal that is proportional to the potentiometer value. Since the feedback potentiometer monitors the position of an actuator, the 4-20mA signal can be used by a remote instrument to monitor or display actuator position. A 1-5V signal can be obtained by connecting a 250 ohm load resistor between the "4-20" and "-" terminals.

The zero and span adjustments on the XMA-105 allow the user to scale the 4-20mA signal to correspond with the zero and span positions set by the AMC/LRC/SVC/DMC controller. After the AMC/LRC/SVC/DMC has been set, position the actuator to the zero position and adjust the XMA-105 zero to achieve the desired output (usually 4 mA). Then position the actuator to the span position and adjust the XMA-105 span to achieve the desired output (usually 20 mA). Repeat this process until the zero and span positions yield the desired output from the XMA-105 without further adjustment.

The XMA-105 can also be used when no actuator controller is used. In this application, the XMA-105 will

need to be powered by an AMI/PWR Series unit or an equivalent power supply of 11 to 32 VDC - see wiring diagram for details.

## SPECIFICATIONS

### OPERATING VOLTAGE

11 to 32 VDC

### OPERATING CURRENT

(not including output current and feedback pot)

5 to 8 mA

### INPUT SPECIFICATIONS

Zero (output = 4.0mA)	0.2 to 5 VDC
Span (output = 20.0mA)	0.62 to 10 VDC
Zero-to-Span Differential	0.42 VDC minimum
Input Impedance	200K ohms

### FEEDBACK POTENTIOMETER (total resistance)

1K to 10K ohms

### ENVIRONMENTAL

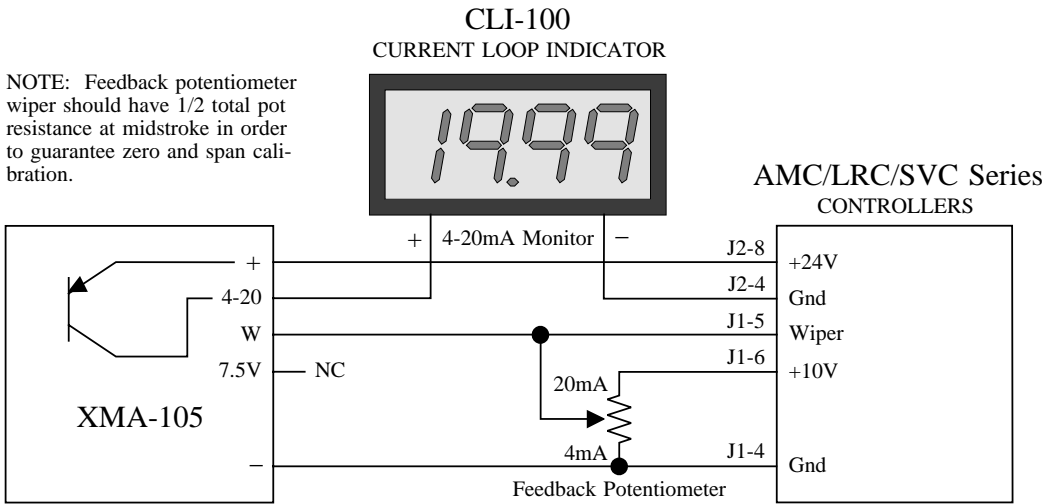

Operating Temperature	-40 to 65 °C
Storage Temperature	-40 to 85 °C
Relative Humidity	0 to 90 % (non-condensing)

### OUTPUT OPERATING RANGE

CONNECTING XMA-105 AS STAND ALONE FEEDBACK TRANSMITTER

CONNECTING XMA-105 WITH AMC/LRC/SVC SERIES
