

# Plastiform®

## SRC, SRD, SRF

### DESCRIPTION

### CEMENT, DOUGH & RE-FORM PRODUCTS

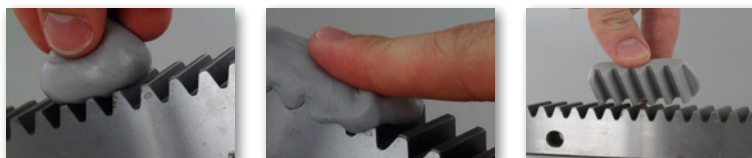

- Cement (SRC), Dough (SRD) and Re-form (SRF) initial consistency products for checking partial internal and external shapes that can be measured optically or, for some products, to size.
- Impressions can be cut with a double-blade cutter to measure the cross-section optically.
- The SRC8 Ra product enables the production of indentations on which the roughness Ra can be measured with high precision.

Boxes 900ml

#### External impression (SRD)

#### Control of roughness Ra (SRC)

#### Protection (SRF)

Re-form
