

TMMR 4F/SET

SKF Reversible Jaw Puller Set TMMR 4F/SET

The SKF Reversible Jaw Puller Set TMMR 4F/SET contains four TMMR pullers designed for internal and external pulling jobs of bearings and other components such as gears and pulleys. All pullers can be mounted with the claws facing inside or outside, making it a versatile and essential tool for mechanical workshops. The set includes four different sized pullers, a convenient puller stand and a tube of spindle lubricant.

- Comprehensive set of four reversible jaw pullers for internal and external pulling applications
- Easy adjustment of the width of grip with self-locking arms
- Enhanced corrosion resistance and easy cleaning with zinc passivated arms and beam
- No permanent deformation of puller arms when used up to maximum withdrawl force
- Supplied with convenient puller stand and spindle lubricant
