

BRIEF INFORMATION

Remote Jump Start System

- High capacity jump-start connectors for Mining equipment
- Ideal for use where access to terminals is restricted or dangerous
- Eliminates chance of cross polarity connections through the specially shaped plug
- Reduces chance of sparking and possible ignition of flammable materials

RANGE OVERVIEW

Description	Part Number
Jump Start Plug	
1) Jump Start Plug: high impact ABS Plastic. Copper (silver brass coated) Terminals.	8JA 177 305-101
Suitable for 70 mm ² Cable. Connection via crimping and soldering process.	
Jump Start Terminal	
2) Jump Start Terminal: Removes risk of terminal crossing, high impact ABS plastic, zinc coated terminals.	8JB 177 305-001
3) Terminal Kit: Kit of jump start terminal, bracket and cap.	8HG 177 305-031
4) Terminal Bracket: Bracket for mounting jump start terminal to vehicle body.	8HG 177 305-021
5) Terminal Cap: Cap to protect terminal from external environment when not in use.	9HD 177 305-011
