Our Commitment To You

"Quality That Pays For Itself"

Founded in 1962, **Val-Tex** has grown to become the preferred provider of high quality valve maintenance products worldwide.

Whether **Val-Tex** is assisting a major valve manufacturer or a utility in a small town, we take pride in helping our customers solve their valve maintenance problems.

Behind every **Val-Tex** product stands a company committed to:

- **Quality:** **Val-Tex** standard maintenance products do not contain Teflon®, clay, talc, wax, acid, caustic, or solvents that add to your valve maintenance problems.
- **Competitive Prices:** **Val-Tex** provides cost effective maintenance solutions especially when compared to the high cost of continuing valve problems and their potential safety issues.
- **Prompt Deliveries:** **Val-Tex** has a large selection of products in stock and available for immediate shipment.

In addition, the extensive technical support and training **Val-Tex** provides to you and your personnel helps maximize the value of the time and money spent on your valve maintenance program.

From the classroom to the field, from land to sub-sea applications, **Val-Tex** and a proven team of manufacturers' agents are ready to assist you worldwide.

Valve Lube Sealant Packaging

Bulk Lube Sealant

Bulk lube sealant provides the following advantages:

- Superior lubricity for easier valve operation
- Excellent sealing capability
- Val-Tex bulk lube sealants are available in varying viscosities
- Industry standard packaging

Val-Tex bulk lube sealant is packaged to fit your existing equipment. Bulk consistency is designated by the letter "S" in the part number. (ex. 80-S-10) Please refer to the chart below for detailed information.

Size	Container	Net Weight		Suggested Injection Equipment
		Lbs.	Kilos.	
10	5 quart can	10	4.53	5-70, 10-70
40	5 gallon pail	40	18.14	40-70
120	16 gallon drum	120	54.43	On Request
440	55 gallon drum	440	199.58	On Request

Stick Lube Sealant

Stick lube sealant provides the following advantages:

- Greater sealing ability than bulk lube sealant due to its higher viscosity
- Enhanced lubricity for easier valve operation
- Val-Tex stick lube sealants offer varying viscosities
- Size J, K, and V sticks are packaged in user friendly, biodegradable cellophane wrapped sticks

Val-Tex stick lube sealant is available in a variety of stick sizes and packaging to fit your existing equipment. Please refer to the chart below for detailed information.

Stick Size	Diameter		Length		Suggested Injection Equipment	Sticks per Carton/Box	Net Weight

Val-Tex Lube Sealants

"Quality That Pays For Itself"

All Val-Tex lube sealants and silicone sealants are available in either stick or bulk packaging, unless otherwise noted. Please refer to page 2 for types of packaging. Call Val-Tex or your nearest Val-Tex agent with questions on applications that are not addressed in this chart.

Product	Description	Temperature Range	Color	Biodegradable	Application
40	Multi-purpose acid and caustic valve lube sealant	-10° F to 400° F -23° C to 204° C	Off-white	Yes	Developed for valves used in acid and caustic services throughout the chemical industry
50	Replaced by 750				
60	Multi-purpose valve lube sealant for general oilfield and plant services	-20° F to 400° F -28° C to 204° C	Light tan	Yes	Developed expressly for valves used in natural gas, crude oil production, X'mas tree valves, gathering systems, crude oil pipelines, and general plant services. Resistant to crude oil, distillate, and salt water.
65	Multi-purpose valve lube sealant for hydrogen sulfide and low pressure carbon dioxide service	-20° F to 350° F -28° C to 176° C	Brown	Yes	Formulated for valves used in sour gas or sour crude service (hydrogen sulfide) and/or low pressure carbon dioxide service.
75	High temperature multi-purpose valve lube sealant (contains moly-disulfide)	-20° F to 750° F -28° C to 398° C	Black	Yes	Developed for valves used in high temperature systems carrying hydrocarbons from heavy crude oils up to and including the aromatics.
80	Multi-purpose valve lube sealant for natural gas, LPG's and aromatics	-20° F to 500° F -28° C to 260° C	Amber	Yes	A proven product for natural gas that is highly resistant to mineral oils, light hydrocarbons, LPG's, and aromatics.
80-HM	Very heavy multi-purpose valve lube sealant (contains moly-disulfide)	-20° F to 500° F -28° C to 260° C	Black	Yes	Formulated to be used on well service units and storage field valves where extreme high pressures are encountered. Highly resistant to natural gas, mineral oils, light hydrocarbons, LPG's and aromatics.
85	Extra heavy multi-purpose valve lube sealant	-20° F to 500° F -28° C to 260° C	Amber	Yes	Developed to be used on storage field valves where extreme high pressures are encountered. Highly resistant to natural gas, mineral oils, light hydrocarbons, LPG's, and aromatics
700	Synthetic multi-purpose valve lube sealant with moly-disulfide	-20° F to 450° F -28° C to 232° C	Black	Yes	Excellent resistance to liquids. Suitable for natural gas, mineral oils, light hydrocarbons, LPG's, aromatics, sour gas, sour crude, CO ₂ , gasoline, water and instrument air.
750	Special low temperature synthetic multi-purpose valve lube sealant with moly-disulfide	-50° F to 375° F -45° C to 190° C	Black	Yes	Formulated for very low temperatures. Excellent resistance to liquids. Suitable for natural gas, mineral oils, light hydrocarbons, LPG's, aromatics, sour gas, sour crude, CO ₂ , gasoline, water and instrument air.
972	Multi-purpose valve lube sealant with moly-disulfide	-20° F to 600° F -29° C to 315° C	Black	Yes	General purpose product formulated for valves in high pressure and high temperature oil and gas service. Contains moly-disulfide to reduce operating torque.

"Quality That Pays For Itself"

Val-Tex Lube Sealants

All Val-Tex lube sealants and silicone sealants are available in either stick or bulk packaging, unless otherwise noted. Please refer to page 2 for types of packaging. Call Val-Tex or your nearest Val-Tex agent with questions on applications that are not addressed in this chart.

Product	Description	Temperature Range	Color	Biodegradable	Application
---------	-------------	-------------------	-------	---------------	-------------

Emergency Lube Sealants: Formulated to seal badly worn ball, plug, and gate valves

80+FTFE	Emergency multi-purpose valve lube sealant with fine Teflon® particles (FTFE) ® Registered Trademark of DuPont	-20° F to 500° F -28° C to 260° C	Amber	Yes	Contains Teflon® particles in carrier oils that are resistant to most hydrocarbons. Repeated use of any TFE material is not recommended.
700+FTFE	Synthetic emergency multi-purpose valve lube sealant with fine Teflon® particles (FTFE)	-20° F to 450° F -28° C to 232° C	Black	Yes	Contains Teflon® particles in a synthetic carrier oil that is suitable for hydrocarbons, sour gas, sour crude, CO ₂ , water, and instrument air service.
450	Emergency multi-purpose valve sealant. Available in bulk only.	50° F to 400° F 10° C to 204° C	Black	Yes	An extremely heavy sealant that does not contain Teflon®. Do not use below 50° F. Suitable for hydrocarbon service.

Light Lubricants: Available in Bulk Only

2000	Synthetic valve lubricant with moly-disulfide. Ideal for commissioning of new ball valves.	-45° F to 450° F -42° C to 232° C	Black	Yes	Excellent resistance to liquids. Suitable for natural gas, mineral oils, light hydrocarbons, LPG's, aromatics, sour gas, sour crude, CO ₂ , gasoline, instrument air, and water.
------	--	--------------------------------------	-------	-----	---

Silicone Sealants

202	Silicone sealant. Available in tubes and other standard bulk packaging.	-40° F to 400° F -40° C to 204° C	White	No	Formulated for hot air, hot water, acetic acid, acetic anhydride, ethyl alcohol, CO ₂ , and other applications suitable for silicone sealants.
302	Silicone sealant with moly-disulfide.	-40° F to 400° F -40° C to 204° C	Black	No	Developed for hot air, hot water, acetic acid, acetic anhydride, ethyl alcohol, CO ₂ , and other applications suitable for silicone sealants where additional lubricity is required.

A.P.I. Gate Valve Lubricant

PL-1000	Lubricant for A.P.I. gate valves. Used for body fill. Available in bulk only.	-10° F to 400° F -23° C to 204° C	Black	Yes	Highly resistant to crude oil, gas, and water. Formulated with non-petroleum oils to protect wellhead valves from corrosion and wear. Free of fillers. Contains moly-disulfide for lower operating torque.
---------	---	--------------------------------------	-------	-----	--

Val-Tex Valve Flush

"Quality That Pays For Itself"

"IF THE LABEL DOESN'T SAY VAL-TEX, IT'S NOT VALVE FLUSH"

Val-Tex Valve Flush cleans out hardened sealants and lubricants that contain solids and / or fillers in all types of valves. This superior product is formulated using non-petroleum oils.

Valve Flush does not contain acid, caustic, solvent, or solids to add to your problems. Valve Flush is a safe, biodegradable, non-hazardous material. It is generally compatible with all lubricants and sealants.

After Valve Flush has freed your valve, follow with Val-Tex lube sealants. They are free of solids and fillers and eliminate the need for products like **Valve Flush**.

Val-Tex Valve Flush is available in the following packaging for use with standard valve lubrication equipment.

Part No.	Description	Weight		Suggested Injection Equipment
		Lbs.	Kilos.	
VF-CTN	4-2 lb. bottles	8	3.63	1400, QS-2000A, QS-2200A 1000-31, 6268A-13, MM
VF-GAL	1 Gallon Jug	8	3.63	QS-5000, QS-5000-C
VF-10	5 Quart Can	10	4.53	5-70, 10-70
VF-40	5 Gallon Pail	40	18.14	40-70
VF-120	16 Gallon Drum	120	54.43	On Request
VF-440	55 Gallon Drum	440	199.58	On Request

**STOP VALVE PROBLEMS BEFORE THEY START
USE VAL-TEX LUBE SEALANTS**

Stem and Thread Compounds

10-S Stem and Thread Lubricant - Temperature Range: 10° F to 350° F

Superior weather resistant thread and stem lubricant that helps to retard corrosion. Apply sparingly. Color: silver. Packaged In Zip Top Tubes, 1lb./.45 kg. cans, 10 lb./4.53 kg. cans, 40 lb./18.14 kg. pails, 120 lb./54.43 kg. drums and 440 lb./199.58 kg. drums.

19-S Thread Compound - Temperature Range: 10° F to 400° F

Seals and protects threads. Highly resistant to corrosion. Prevents galling of threads. Ideal for stainless to stainless threads. Packaged in Zip Top Tubes, 1 lb./.45 kg. cans, 10 lb./4.53 kg. cans, 40 lb./18.14 kg. pails, 120 lb./54.43 kg. drums, and 440 lb./199.58 kg. drums.

Lubrication Fittings

"Quality That Pays For Itself"

Giant Buttonhead Fittings

Choose the single check for general service or double check for extra safety in high pressure applications. Available in NPT or UNC threads. Use a Val-Tex giant buttonhead coupler for lubrication.

Part Number		Thread Size
Single Check	Double Check	
SC-18	—————	1/8" NPTF
SC-14	DC-14	1/4" NPT
SC-38	DC-38	3/8" NPT
SC-12	DC-12	1/2" NPT
SC-12-BUSHED*	DC-34	3/4" NPT
—————	DC-1	1" NPT
—————	DC-58-11	5/8"-11 UNC
SC-38-16	—————	3/8"-16 UNC
—————	DC-34-10	3/4"-10 UNC

* Includes SC-12 with 1/2"x3/4" bushing

Combination Giant Buttonhead/Lube Screw Fittings

Tall buttonhead fittings are available in a single ball check for general service or a double ball check for extra safety in high pressure applications. Choose from NPSM (straight) or UNC threads. Use a Val-Tex giant buttonhead coupler for lubrication.

Part Number		Thread Size
Single Check	Double Check	
TSC-14	TDC-14	1/4" NPSM
TSC-38	TDC-38	3/8" NPSM
TSC-12	TDC-12	1/2" NPSM
TSC-34	TDC-34	3/4" NPSM
TSC-38-16	—————	3/8"-16 UNC
TSC-12-13	—————	1/2"-13 UNC
—————	TDC-58-11	5/8"-11 UNC
TSC-34-10	TDC-34-10	3/4"-10 UNC
—————	TDC-78-9	7/8"-9 UNC
TSC-1-10	—————	1"-10 UNC

Vented Cap Fittings

Available in standard or Full Flow design. Both designs have a single check that provides the primary seal. The vent cap is a secondary seal and retards corrosion of the fitting face.

Used on gate valves, such as WKM and Cameron, and ball valves such as Cameron, Grove and FMC having large capped fittings. Use a Val-Tex WKM or CIW-GB adapter for lubrication.

Part Number		Thread Size
Standard	Full Flow	
CF-14	CF-14-FF	1/4" NPT
CF-38	CF-38-FF	3/8" NPT
CF-12	CF-12-FF	1/2" NPT
CF-34	CF-34-FF	3/4" NPT
CF-1	CF-1-FF	1" NPT

Vented Cap Giant Buttonhead Fittings

Choose standard or Full Flow design. Both designs have a single check that provides the primary seal. The vent cap is a secondary seal and retards corrosion of the fitting face.

Used on gate valves, such as WKM and Cameron, and ball valves such as Cameron, Grove and FMC having large capped fittings. Use a Val-Tex WKM, CIW-GB adapter or giant buttonhead coupler for lubrication.

Part Number		Thread Size
Standard	Full Flow	
CF-14-GB	CF-14-FF-GB	1/4" NPT
CF-38-GB	CF-38-FF-GB	3/8" NPT
CF-12-GB	CF-12-FF-GB	1/2" NPT
CF-34-GB	CF-34-FF-GB	3/4" NPT
CF-1-GB	CF-1-FF-GB	1" NPT

Fittings are rated to 10,000 PSI. Body is 1215 carbon steel with a 302 stainless steel spring and chrome alloy ball unless otherwise noted. Fittings are also available in 316 stainless steel, 4140, 4130, or other materials upon request. Please contact Val-Tex or your nearest Val-Tex agent for your special requirements.

Lubrication Fittings and Adapters

"Quality That Pays For Itself"

Safety-Seal Fittings

This two piece fitting is designed with double chrome alloy ball checks and positive metal-to-metal shut-off. This assures maximum safety where high pressure and/or dangerous products are encountered. Loosen 1 1/2 turns to inject product.

Part Number	Thread Size
SS-14	1/4" NPT
SS-38	3/8" NPT
SS-12	1/2" NPT
SS-34	3/4" NPT

Packing Injectors

Used for injection of fibrous and plastic packing into the stem area. Available with a floating ball tapered cavity or the Full Flow design. Choose from NPT or UNC threads.

Part Number		Thread Size
Floating Ball	Full Flow	
PI-14	PI-14-FF	1/4" NPT
PI-38	PI-38-FF	3/8" NPT
PI-12	PI-12-FF	1/2" NPT
PI-58-11	—————	5/8"-11 UNC
PI-34-10	—————	3/4"-10 UNC

Packing injector pressure relief tool (Part No. PI-PRT) is used to bleed pressure from the stem area. Compatible with most packing injectors with 1/2"-20 UNF I.D. threads.

Body Bleed Fittings

Used to bleed pressure from valve bodies. The standard floating ball check is 440 stainless steel.

Part Number	Thread Size
BB-14	1/4" NPT
BB-38	3/8" NPT
BB-12	1/2" NPT
BB-34	3/4" NPT
BB-1	1" NPT
BB-125	1 1/4" NPT
BB-15	1 1/2" NPT

Auxiliary Fittings

Used for emergency sealing of leaking giant or standard buttonhead fittings. Special features include a nylon insert to provide a durable seal for uninterrupted service and a fitting lock to prevent accidental removal. This is a reusable device.

Part Number	Application
AF-1	Giant Buttonhead Fittings
AF-2	Standard Buttonhead Fittings

Zerk Adapter

For lubrication of all Zerk fittings using standard valve lubrication equipment. Consists of a giant buttonhead fitting to a zerk adapter.

Part Number
Zerk Adapter

Fittings are rated to 10,000 PSI. Body is 1215 carbon steel with a 302 stainless steel spring and chrome alloy ball unless otherwise noted. Fittings are also available in 316 stainless steel, 4140, 4130, or other materials upon request. Please contact Val-Tex or your nearest Val-Tex agent for your special requirements.

Lubrication Adapters and Tools

Lubrication Adapters

For use on gate and ball valves having various sizes of capped fittings (Cameron, WKM, Grove, etc.). Durable design includes a nipple on the stem to allow a secure connection to the fitting for uninterrupted flow of lube sealant or Valve Flush. Should the ball check in a lubrication fitting fail to reseal, these adapters can remain connected until the fitting can be replaced.

WKM #1 / CIW #1 / CIW-GB-1

This adapter is a cost effective way to convert from a capped fitting to your gun's giant buttonhead coupler. **CAUTION:** When disconnecting, trapped pressure is relieved through a vent hole in the nut. If this is a safety concern, please see #2 style adapter below.

Part Number	Nut Size	Fitting Application
WKM #1	1"-14 UNS	Capped and G.B. Capped
CIW #1	3/4"-16 UNF	Cameron Small Capped Fitting
CIW-GB-1	1"-14 UNS	Cameron Large Capped Fitting

WKM #2 / CIW #2 / CIW-GB-2

This adapter allows you to convert from a capped fitting to your gun's giant buttonhead coupler. Designed for maximum safety. Bleeder valve vents trapped pressure before disconnecting.

Part Number	Nut Size	Fitting Application
WKM #2	1"-14 UNS	Capped and G.B. Capped
CIW #2	3/4"-16 UNF	Cameron Small Capped Fitting
CIW-GB-2	1"-14 UNS	Cameron Large Capped Fitting

WKM #3 / CIW #3 / CIW-GB-3

Connects directly to the 1/4" NPT male adapter on your lubrication hose assembly. This adapter allows maximum unrestricted flow when injecting any material containing TFE. Trapped pressure is relieved through a vent hole in the nut while disconnecting.

Part Number	Nut Size	Fitting Application
WKM #3	1"-14 UNS	Capped and G.B. Capped
CIW #3	3/4"-16 UNF	Cameron Small Capped Fitting
CIW-GB-3	1"-14 UNS	Cameron Large Capped Fitting

Pressure Releasing Tool

Connects to capped fittings and giant buttonhead capped fittings to allow body cavity pressure to be vented to atmosphere. Fits 1"-14 UNS threads. Discharge port is 1/2" NPT female.

Part Number
PRT-12

Lubrication Fitting Reference

1"

To determine the thread size of your lubrication fittings, compare the thread width to the inside of the reference markings. If you have a small vent capped fitting or large vent capped fitting remove the cap and compare the exposed top of the fitting to the circles below. For accuracy, view through one eye.

3/4"

When using Valve Flush it may be necessary to perform the flushing procedure twice.

Lubrication Extension Calculation

Inside Diameter (I.D.)	1/4"	3/8"	1/2"	3/4"
Ounces Per Foot	0.5	1.3	2.0	4.0

If possible, the extension should be removed and any old hardened material should be cleared from the line and not pumped into the valve.

"Quality That Pays For Itself"

Val-Tex 1000-31

10,000 P.S.I. High Pressure Screw Prime Valve Lubrication Gun

Stick Size: K
PSI Rating: 10,000
Priming: Screw Type
Delivery: 1 oz. / 15 strokes

Weight: 13 Lbs.
Gauge: Optional
Lube Pack Compatible: No
Internal Relief Valve: No

The Val-Tex 1000-31 lever gun accepts standard lube sealant sticks and Valve Flush. The 1000-31 is durable and easily repairable because it has few moving parts.

The standard 1000-31 is shipped as shown above, with hose center, ball bearing swivel, and giant buttonhead coupler with nylon coupler washer. Options such as high pressure hose tee, gauge, gauge guard, carrying strap, Z-swivel, various hose lengths and repair parts are available upon request.

CAUTION: This gun is not equipped with an internal ball check in the head assembly and line pressure may bleed back into the barrel. Before removing the giant buttonhead coupler, turn the screw handle counterclockwise and raise the plunger handle to relieve pressure.

1000-21-30: Hose assembly complete (no gauge)
1000A-31G: Gun complete with gauge assembly

Item	Part No.	Description
1	1000-1	Head
2	1000-2	Pipe Plug
3	1000-3	Nut
4	1000-4	Primer Cup
5	1000-5	Washer
6	1000-6	Primer Spring
7	1000-7	Screw
8	1000-8	Nut
9	1000-9	Barrel
10	1000-10	Collar
11	1000-11	Screw Handle

	.25 TEE	High Pressure Hose Tee
	1422	Carrying Strap
	15MGF	High Pressure Gauge
	52752	Z-Swivel
	301296	High Pressure Tee Adapter
	319700	Shut-off / Bleeder Valve
	GC-250	Gauge Guard
		Various Hose Lengths

10,000 P.S.I. High Pressure Hydraulic Valve Lubrication Gun

Lube Sealant Size: J, P, CT12
PSI Rating: 10,000
Priming: Self-Priming Hydraulic
Delivery: 1 oz. / 44 strokes

Weight: 16 Lbs.
Gauge: Included
Lube Pack Compatible: Yes
Internal Relief Valve: Yes

The **Val-Tex 1400** is a rugged, light weight unit that is self priming and can be used in any position. Pressure is easily relieved by turning the by-pass valve one and one half revolutions allowing the coupler to be removed from the grease fitting. The hydraulic system is equipped with an internal hydraulic relief to provide maximum safety in the event an operator continues to pump after the gun has been depleted of lube sealant.

The **standard 1400** shipped as shown above, comes complete with lube pack adapter, hose tee, 15,000 P.S.I. 2 1/2 inch liquid filled stainless steel gauge, ball bearing swivel, hose center, and giant buttonhead coupler with nylon coupler washer. Options such as gauge guard, carrying strap, Z-swivel, 1/4 turn shutoff / bleeder valve, and variable hose lengths are available upon request. Repair kits are also available. Parts are interchangeable with most manufacturer's guns.

Special features include a slip link to help prevent damage due to over extension of the pump piston, handle latch assembly to protect the pump piston when the gun is not in use, graduated handle with one ounce markings to eliminate guesswork and waste during injection, and a special adapter for Lube Packs.

Consult the maintenance manual that is enclosed with every **Val-Tex 1400** for troubleshooting and repair procedures.

Warning: Use only UCON-500 hydraulic fluid in the gun. Do not carry the **1400** hydraulic gun by the handle.

Exchange Program for hydraulic lubrication guns is available. See page 13 for details.

Lubrication Gun Accessories

For maximum protection of your **hydraulic lubrication gun**, this **Gun Case** is constructed of easy to clean, durable aluminum with heavy-duty latches and carrying handle.

The **Val-Tex GC-250 Gauge Guard** is a wise investment to protect your gauge. It fits a 2 1/2" bottom mount gauge, which is standard on most Val-Tex equipment. The easy to install GC-250's tough construction provides impact resistance for the entire gauge. A UV resistant material helps to prevent the Gauge Guard from cracking due to exposure to the sun.

Val-Tex 1400

Hydraulic Lubrication Gun Exchange Program

"Quality That Pays For Itself"

Reconditioned Hydraulic High Pressure Valve Lubrication Gun

Lube Sealant Size: J, P, CT12
PSI Rating: 10,000
Priming: Self-Priming Hydraulic
Delivery: 1 ounce / 44 strokes

Weight: 14 Lbs.
Gauge: Not included
Lube Pack Compatible: Yes
Internal Relief Valve: Yes

Exchanging a gun is quick, easy and inexpensive. Val-Tex maintains a large stock of reconditioned hydraulic guns ready for immediate exchange. Details about the exchange program are as follows:

- All brands of hydraulic guns accepted
- Covers all internal parts and replating
- Rapid turnaround
- Free estimates on parts not covered
- Base price does not include external parts, hose assembly, or gauge

After receipt, your hydraulic gun will be promptly inspected and you will be advised of the total charges. Prior to your authorization for exchange, your original gun can be returned. After getting your approval, Val-Tex will send you a replated, reconditioned gun that has passed our stringent quality control inspection.

Replacement gauge, hose assembly parts, and accessories are also available upon request. (See page 12 for parts)

“Mini-Mite” Mini Greaser

The “Mini-Mite” allows you to quickly inject “B” size sticks into stop cock valves. Features include:

- Easy loading
- Sturdy construction
- Multi-use handle

The unit is also available with a hose (MM-1) or with hose and giant buttonhead coupler (MM-1-27).

“Big Grip” Cartridge Loader

The “Big Grip” Cartridge Loader makes it easier and more convenient to load cartridges of lube sealant and lubricant. It is designed for use with the Val-Tex 1400, QS-2000A, and QS-2200A lubrication guns.

"Quality That Pays For Itself"

Val-Tex 6268A-13

15,000 P.S.I. High Pressure Screw Prime Valve Lubrication Gun

Stick Size: K
PSI Rating: 15,000
Priming: Manual
Delivery: 1oz. / 24 strokes

Weight: 17 Lbs.
Gauge: Optional
Lube Pack Compatible: No
Internal Relief Valve: No

The Val-Tex 6268A-13 lever gun injects Valve Flush and all types of lube sealant, from heavy to light viscosities with equal ease. Extra heavy duty barrel assures maximum safety and long life. The 6268A-13 accepts all standard lube sealant sticks. Standard features include extra long handle for maximum leverage, mechanical screw and spring primer to assure positive prime and a pressure relief screw for ease in disconnecting.

The standard 6268A-13 shipped as shown above, comes complete with ball bearing swivel, hose center, and a giant buttonhead coupler with nylon coupler washer. Options such as high pressure hose tee, gauge, gauge guard, carrying strap, Z-swivel, 1/4 turn shutoff / bleeder valve, various hose lengths, and repair parts are available upon request.

"Quality That Pays For Itself"

Val-Tex "Quick Stick" QS-2000A

Air / Hydraulic Lubrication Gun

Delivery: 8 ounces / 30-60 seconds
Weight: 32 Lbs.
Lube Sealant Size: J, P, CT12
PSI Rating: 10,000
Overall Dimensions: 20" H X 11" W X 17" L
Priming: Self-Priming Air / Hydraulic
CFM Required: 9
Air Pressure Required: 75 - 100 PSI
Pressure Delivered through a 6 foot hose at 100 PSI:
 Lube Sealant - 8,000 PSI
 Valve Flush - 10,000 PSI
Gauge: Included
Lube Pack Compatible: Yes
Internal Relief Valve: Yes

The easy to operate Val-Tex QS-2000A is a fast, affordable, compact, rugged lubrication unit. The lightweight QS-2000A is easily portable and pumps lube sealant sticks, Lube Packs, and Valve Flush. The unit comes complete with a six foot, 3/8 inch I.D. high pressure hose, 15,000 PSI gauge, Gauge Guard, dual swivels, and a giant buttonhead coupler. The hydraulic pump requires only periodic maintenance and has an internal safety relief valve set at approximately 10,000 PSI to prevent over pressuring the unit.

Options available:

- Unit available with sealant barrel to fit K size lube sealant sticks (Part # QS-2000A-K).
- Air regulator (8607) rated to 3,000 PSI and gauge (2052L160) rated to 160 PSI. **Be sure to refer to your company's policies before using anything other than compressor air for your power source.**
- Sealant hose lengths up to 10 feet. We do not recommend hoses longer than 10 feet because of the output pressure drop.
- Moisture separator (5604-2) and airline lubricator (5904-2) for protection of the pump.

"Quality That Pays For Itself"

Val-Tex QS-2200A

Electric / Hydraulic Lubrication Gun

Delivery: 8 ounces / 30-60 seconds
Weight: 40 Lbs.
Lube Sealant Size: J, P, CT12
PSI Rating: 10,000
Overall Dimensions: 20" H X 13" W X 17" L
Priming: Self-Priming Electric / Hydraulic
Pressure Delivered through a 6 foot hose at 100 PSI:
 Lube Sealant - 8,000 PSI
 Valve Flush - 10,000 PSI
Gauge: Included
Lube Pack Compatible: Yes
Internal Relief Valve: Yes

The easy to operate Val-Tex QS-2200A is a fast, compact, rugged lubrication unit. Run by a rechargeable battery powered hydraulic pump, the QS-2200A gives you complete mobility and eliminates the need for an air supply. It is suitable for use with J size lube sealant sticks, Lube Packs, cartridges, and Valve Flush.

The unit comes complete with a six foot, 3/8 inch I.D. high pressure hose, 15,000 PSI gauge, Gauge Guard, dual swivels, and a giant buttonhead coupler. The hydraulic pump requires only periodic maintenance and has an internal safety relief valve set at approximately 10,000 PSI to prevent over pressuring the unit.

Options available:

- Unit available with sealant barrel to fit K size lube sealant sticks (Part # QS-2200A-K).
- Sealant hose lengths up to 10 feet. We do not recommend hoses longer than 10 feet because of the output pressure drop.

Val-Tex "Quick Stick" QS-5000

"Quality That Pays For Itself"

Air / Hydraulic Lubrication Gun

Delivery: 8 oz. / 30-60 seconds
Weight: 180 Lbs.
Lube Sealant Size: V, P-4
PSI Rating: 10,000
Overall Dimensions: 44" H X 23" W X 31" L
Priming: Self-Priming Air / Hydraulic
CFM Required: 20
Air Pressure Required: 75 - 100 PSI
Pressure Delivered through a 10 foot hose at 100 PSI:
 Lube Sealant - 8,000 PSI
 Valve Flush - 10,000 PSI
Gauge: Included
Lube Pack Compatible: Yes
Internal Relief Valve: Yes

The Val-Tex QS-5000 is a fast, versatile, heavy duty lubrication unit that will pump large volumes of stick lube sealant, Lube Packs, and Valve Flush. The QS-5000 has the largest stick lube sealant capacity in the valve lubrication industry. The Val-Tex five pound V-stick, four pound P-4 Lube Pack, and the one gallon Valve Flush (VF-GAL) are designed to drastically reduce the frequency of loading.

The QS-5000's four inch pneumatic tires allow the unit to be maneuvered easily by one person. The rugged sealant cap wrench has 16 ounce graduations to let the operator control the amount of material being loaded. The unit comes complete with a 10 foot, 3/8 inch I.D. high pressure hose, quarter turn shut-off / bleeder valve, 15,000 PSI gauge, Gauge Guard, dual swivels, and giant buttonhead coupler. The hydraulic pump requires only periodic maintenance and has an internal safety relief valve set at approximately 10,000 PSI to prevent over-pressuring the unit.

Options Available

- Metal reservoir for the hydraulic pump (5030)
- Sight glass modification to the metal hydraulic pump reservoir allows the operator to monitor the amount of material being pumped. Also available as a modification to QS-5000's in the field.
- Air regulator (8607) rated for 3,000 PSI input and gauge (2052L160) rated to 160 PSI. **Be sure to refer to your company's policies before using anything other than compressor air for your power source.**
- Moisture separator (5604-2) and airline lubricator (5904-2) for protection of the pump.

The QS-5M-SUBSEA configuration is available for underwater lubrication of valves. The large capacity cylinder allows a diver to lubricate multiple valves without having to reload the unit. The QS-5M-SUBSEA includes a complete cylinder assembly (5001A), sealant hose assembly (5016), hydraulic pump, and hydraulic hose with quick disconnects. Please call Val-Tex to discuss special requirements or configurations.

"Quality That Pays For Itself"

Val-Tex QS-5000-C

Air / Hydraulic Lubrication Gun

- Delivery:** 8 oz. / 30-60 seconds
- Weight:** 153 Lbs.
- Lube Sealant Size:** V, P-4
- PSI Rating:** 10,000
- Overall Dimensions:** 46" H X 20" W X 26" L
- Priming:** Self-Priming Air / Hydraulic
- CFM Required:** 20
- Air Pressure Required:** 75 - 100 PSI
- Pressure Delivered through a 10 foot hose at 100 PSI:**
 - Lube Sealant - 8,000 PSI**
 - Valve Flush - 10,000 PSI**
- Gauge:** Included
- Lube Pack Compatible:** Yes
- Internal Relief Valve:** Yes

The Val-Tex **QS-5000-C** is a compact, easy to transport, fast, versatile, heavy duty lubrication unit that will pump large volumes of stick lube sealant, lube packs, and Valve Flush. The **QS-5000-C** is quickly separated into two parts by removing the cylinder for easy loading and unloading by one person. Assembly is as simple as inserting the two catch pins to secure the cylinder clamps to the frame.

The **QS-5000-C** has the largest stick lube sealant capacity in the valve lubrication industry. The Val-Tex five pound V-stick, four pound P-4 Lube Pack, and one gallon Valve Flush (VF-GAL) are designed to drastically reduce the frequency of loading.

The **QS-5000-C's** four inch pneumatic tires allow the unit to be maneuvered easily by one person. The rugged sealant cap wrench has 16 ounce graduations to allow the operator to control the amount of material being loaded. The unit comes complete with a 10 foot, 3/8 inch I.D. high pressure hose, quarter turn shut-off / bleeder valve, 15,000 PSI gauge, Gauge Guard, dual swivels, giant buttonhead coupler, and metal hydraulic fluid reservoir. The hydraulic pump requires only periodic maintenance and has an internal safety relief valve set at approximately 10,000 PSI to prevent over-pressuring.

Options Available

- Sight glass modification to the metal hydraulic pump reservoir allows the operator to monitor the amount of material being pumped.

Val-Tex Air Operated Lubrication Equipment

"Quality That Pays For Itself"

These powerful, portable, air operated lubrication guns have a 70:1 ratio air motor to quickly pump bulk lube sealants and Valve Flush. A special follower plate and spring assures positive priming. All units come equipped with a 15,000 PSI gauge, Gauge Guard, dual swivels, control handle, 10 foot, 3/8 inch I.D. high pressure grease hose and whip end hose with giant buttonhead coupler. The units are fully automated with no manual activation required.

NOTE: When pumping Valve Flush, remove the follower plate.

Common Features

Delivery: 1/16 ounce per stroke

PSI Rating: 8,000

Self Priming: Spring loaded follower plate

CFM Required: 6

Air Pressure Required: 125 to 185 PSI

Typical Pressure Delivered through a 10 foot hose at 150 PSI:

Lube Sealant - 8,000 PSI

Valve Flush - 8,000 PSI

Gauge: Included

Internal Relief Valve: No

"L'il Greaser" - Model 5-70

The carrying handle makes this compact, portable gun ideal for tight places, overhead lubrication, and easy transporting around the field. The enclosed sealant canister keeps dirt and foreign material out.

For Use With: 5 qt. / 10 lb. can

Dimensions: 25" high X 10" width

Approximate weight: 50 lbs. / 22.68 kg.

"Easy Lube" - Model 10-70

Caddy type cart with large rubber tired wheels assures easy maneuverability. The enclosed sealant canister keeps dirt and foreign material out.

For Use With: 5 qt. / 10 lb. can

Dimensions: 43" high X 18" wide X 28" long

Approximate Weight: 76 lbs. / 34.47 kg.

"Easy Lube" - Model 40-70

A practical gun for servicing a large number of valves. The reversible pail adapter provides uninterrupted flow. The swing type dolly mounted on rubber tired wheels keeps the container upright at all times. The enclosed sealant canister keeps dirt and foreign materials out. Heavy duty latches keep the lid secure.

For Use With: 5 gal. / 40 lb. pail

Dimensions: 37" high X 19" wide X 24" long

Approximate Weight: 78 lbs. / 35.38 kg.
