

## Data Sheet

## AIRLOCK 450TF & 550TF

Quick disconnect for autoclave operation

### DESCRIPTION

The Airlock 450TF and Airlock 550TF are specifically designed for use in the autoclave environment. Its sturdy design performs well in higher temperature and pressure cure cycles. Both quick disconnects are made with FKM O-rings that are not attacked by epoxies.

### TECHNICAL DATA

Material type	Stainless steel
Material type of O ring seals	FKM
Connection to hose	Threaded
Screw thread	1/4 inch female NPT
Coupling size	1/4 inch
Service temperature	Airlock 450TF: 450 °F (232 °C) Airlock 550TF: 550 °F (287 °C)

### SIZES

Socket type	Product reference
Female threaded	Airlock 450TF
Female threaded	Airlock 550TF

### NOTES

Other thread sizes available upon request.
